A Touchstone Energy® Cooperative 

Member Statistics:

- 121 Full-time and part-time employees
- 11,342 Miles of Power Lines
- 12,793 Members
- 15,660 Square-Miles of Service Territory
- 27,921 Meters; Meters by Rate Class – Residential 15,098, Coal Mines 57, Coal Bed Methane 987, LP Commercial 1,1273, Other Industrial/Commercial/Irrigation 10,652

The power of many for the benefit of all:

That's the philosophy behind Powder River Energy Corporation. We're proud to be northeastern Wyoming's preferred energy source, serving more than 12,000 members throughout the region with reliable, efficient, and affordable electric service. As a non-profit Touchstone Energy® Cooperative, we're a "by-the-people, for-the-people" organization dedicated to being not just a provider, but a true partner. We're deeply connected to the community.

Powder River Energy has a diverse portfolio of members ranging from large coal mines and coal bed methane to farm, ranch and residential meters.

PRECorp distributes more than 1.8 billion kilowatt hours of power throughout its service territory. Approximately 38 percent of that is for coal mines, followed by 35 percent of sales to oil related and other industrial and commercial accounts, and 12 percent to CBM wells. The remaining 18 percent of sales go to residential and irrigation.
